RE: 2018 Vacation

Dear Brothers & Sisters,

The Organization has reached an agreement with the Carrier to amend the current vacation sell back policy. Beginning immediately, you will be allowed to sell back or defer until next year up to ten vacation days in addition to the five days we negotiated last September. We will revisit the addition of the two weeks on a year to year basis, depending on the magnitude of the projects and vital maintenance needed to achieve a state of good repair on the railroad.

The BRS has also negotiated terms for payment of all unused Single Vacation Days. Any member who attempts to use their SVD's and is denied will NOT lose them. They will be paid for the remaining days at the end of the year.

In Solidarity,

Michael Sullivan  
BRS Local 56 President
