BRS Local 56 Brothers and Sisters:

We have a brother who has been given devastating news regarding his health. Brad Engelhardt has been an Assistant Signalmen in the Communications Department for the past two years. He recently injured his back, and during what he thought would be a routine process to determine the extent of his injury was diagnosed with Multiple Myeloma, a very rare aggressive and incurable Cancer. Brad is a father of two beautiful children and loving husband, he's in desperate need of ALL of our help. Do to his relative brief time on the property he only has fourteen sick days and his condition will keep him out for months. He's going to require multiple rounds of Chemotherapy and stem cell treatments. We are asking everyone to donate at least ONE vacation or personal day to Brad so he will continue to get a paycheck while he's fighting this disease. It is our goal to collect enough days so that he doesn't go one day without pay. We all value our time off and I know asking for this kindness is a huge favor but we all need help sometimes and if any of you were ever in his same situation we would ALL step up for you. This is a time when we all need to come together and be selfless to help one of our own. Please help our Brother in need.

Please contact me for further information and forms.

Fraternally Yours,

Ryan Burns
Local President
